

 **Street Closing**

The Court Clerk received the following information today from GSA:

4th Street between Harvey and Robinson Streets is closed. The City of Oklahoma City reports that this is work under Project 180 that has been ongoing in the downtown area. This portion of 4th Street will be closed beginning today and continue for the next 6 weeks. The time frame may change due to weather conditions and/or unforeseen difficulties in the project. Rudy Construction has assured GSA that the front entrance (to the Federal Courthouse) will remain open to pedestrian traffic during the project. Visitors to the building will have access to the sidewalk at 4th and Harvey Streets to enter the building.

We apologize for the lack of notice. GSA was notified of the street closing this morning.
